

PONNY KIDS AND THEIR PROJECTS

January 2014

Ecology – Clothes recycling

We enjoyed another exciting Eco project lesson. It was about recycling again but this time it was special recycling – recycling of clothes. Specifically t-shirts

Tigers got the t-shirts...

We can start to design them!

Everyone knows what to do...

Sometimes they needed advise...

Usually not though...

That's what we have done!

Tigers were looking forward to this for few days. And it was really exciting for them that they can do whatever they want with the t-shirts. It was like prebend to be a fabion designer. Some of them brought their own old t-shirt some of them got Ponny t-shirts. They used some markers for clothing some colours and they got scisors to cut whatever they wanted. We had to leave it in basement to let it dry. They could not wait to get the t-shirts and they were so happy to have them!
