

# PONNY KIDS AND THEIR PROJECTS

January 2014

## Life in Europe – The Netherlands

Another country in our list is Netherlands. This country is not really known for Tigers but the flag is pretty familiar. Let's find out something more then!

Pictures of icons first...

Can we find the right flag for them? Yes...

Let's learn about Netherlands...

And colour the map...

It was fun!

Again we had to do some revisions first. We started with flags as usually. They like it a lot. Then we did the pictures again. This is still quite difficult for them but it is getting better anyway. They already know Belgium pretty well and few more countries and their icons. Most of the Tigers were able to match the icons to the right flag as well which is great. In the second part we talked about another country – Netherlands. Tigers coloured the picture map again and the flag.
