

PONNY KIDS AND THEIR PROJECTS

January 2014

Life in Europe - Poland

This lesson of our project Life in Europe was about our neighbours – Poland. Tigers know their flag already but the rest they need to learn.

Tigers repeated the flags again. They know a lot of them already because we do this quite often. We started to do the ones from different continents not only from Europe. They did the pictures as well. And they talked about another country on our list – about Poland. They drew the pope as well but it is quite difficult for them to understand who it is. At the end they used the wooden map. It was a nice lesson again.
