

PONNY KIDS AND THEIR PROJECTS

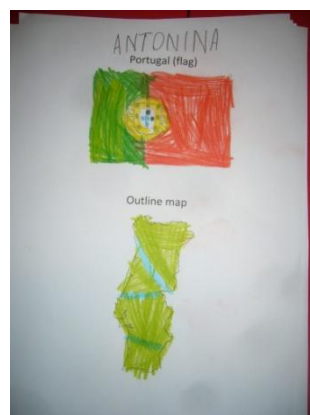

January 2014

Life in Europe - Portugal

Some boys know this country because of football and usually they know where to find it in map but we learned a bit more again. Today's topic is Portugal.

It is always fun to do the flags... Especially the ones we know... We know this all...

Tigers love the maps...

It is fun as well...

They do their best!

At the beginning we repeated the flags. Each Tiger drew three flags and they were asked to tell which country it is. In the second part they drew pictures with typical items from the countries that we already talked about and they were asked to find the right flag for each of the two things. Some of them are easy some are a bit difficult. Anyway there is always time for cooperation. We used the map as well to put the flag to the right place. In the third part we talked about the new country as usual. It was Portugal. Tigers coloured the map and flag and looked for pictures in the map. They can say hello in Spanish now!
